

Contractor Urethane Foundation Crack Repair Kit

Repair up to 40' of concrete crack with hydrophobic foam

Now you can easily repair concrete foundation cracks that leak water. The A-Tech Wet hydrophobic foam is injected into the crack and expands, sealing out water.

Kit Includes:

- 4 Hydra Stop 300 hydrophobic foam
- 4 Poxo Paste surface seal
- 1 Spring drive injection gun
- 40 Surface ports
- 10 Mixing bowls
- 10 Static mixers
- 20 Stir sticks
- 1 Flexible hose
- CD/ROM Instructional video
- Toolbox

Benefits:

- Stop a leak from the interior
- Completely fills the crack
- No drilling
- No chiseling
- Fast and economical
- Uses less material

Where to Use:

- Concrete walls
- Retaining walls
- Manholes
- Tunnels
- Decks
