

UltraGuard

ICF Foundation Waterproofing

UltraGuard is a tri-polymer water-based acrylic foundation waterproofing membrane. UltraGuard is specifically designed to provide a low cost waterproofing solution for ICF foundations. UltraGuard's non-toxic and environmentally friendly formula gives a safe and easy application.

The rubber-like polymers allow UltraGuard to stretch over foundation cracks. Water and water vapor will not be able to penetrate into the basement area.

UltraGuard can be applied to a wide variety of substrates. It is UV stable so that it can be exposed to sunlight without harm or degradation

Benefits:

- Easy application
- Grey color
- UV Stable
- Bridges cracks
- Non-toxic, water-based
- Easy clean up

Size: 5 Gallon pails
55 Gallon drums

Where to Use:

- ICF Foundations
- Concrete walls
- Metal

Application: Brush, roller, airless sprayer
