

Acricoat WB

Concrete Curing and Sealing Compound

Acricoat WB is a water-based curing and sealing compound used on concrete for protection. Acricoat WB is a 25% solids acrylic sealer that darkens and enhances colored, stained and dyed concrete with a medium gloss. When dry Acricoat WB will not yellow or degrade from UV rays.

Acricoat WB protects concrete from de-icing salt, spalling and freeze-thaw cycle damage. It also protects the coloring agent in concrete from damage from foot and vehicle traffic.

Benefits:

- Low VOC < 200 gm/L
- Water-based, easy clean up
- Low odor
- Minimizes spalling and dusting

Features:

- 25% Solids
- Medium gloss sheen
- Protects colored concrete
- Non-yellowing
- Seals out water, dirt, oil and grease

Where to Use:

- Interior concrete
- Exterior concrete

Sizes:

1 Gallon, 5 Gallon Pail and 55 Gallon Drum
